About Us

Madhuram was established in 1995 in Jamnagar, a city widely recognized as Asia’s Brass Hub. Founded by a visionary entrepreneur alongside his brothers, the company has combined innovation, craftsmanship, and exceptional quality in Brass & Metal products since its inception.

Today, Madhuram is a leading manufacturer and exporter of premium Brass & Metal architectural hardware, housing fittings, and customized products. Serving domestic and international markets, the company remains committed to precision, lasting quality, and complete customer satisfaction.

“Engineering Excellence Since 1995”

30+

Years of Brand Trust

Our **Journey**

1995
Foundation

Madhuram was established in Jamnagar, Gujarat, with a vision to manufacture premium-quality brass hardware. From the very beginning, the company focused on precision engineering, reliability, and customer satisfaction.

2000
Multi-state supply

Expanded distribution across multiple Indian states, building a strong dealer and distributor network. Madhuram became a trusted supplier of premium brass hardware for residential and commercial applications.

2010
Exhibition participation

Started participating in leading national hardware exhibitions, showcasing innovative products and strengthening relationships with architects, builders, distributors, and industry professionals across India.

2012
Smooth washer hinges launch

Introduced high-performance Smooth Washer Hinges engineered for smooth movement, enhanced durability, and long-lasting performance. This milestone expanded Madhuram's premium product portfolio.

2013
Steel products manufacturing

Expanded manufacturing capabilities by entering the steel hardware segment. The addition of advanced machinery enabled the production of precision-engineered steel hardware with consistent quality standards.

2016
Brass mortise handles

Launched an exclusive range of premium Brass Mortise Handles, combining elegant aesthetics with robust construction. The collection strengthened Madhuram's presence in the architectural hardware market.

2025
Innovation vision

Invested in advanced manufacturing technologies, modern product development, and global quality standards. Continued expanding the product portfolio with innovative designs focused on durability and premium finishes.

2026
Global Growth & Future Readiness

Strengthened international presence by expanding exports and introducing next-generation architectural hardware solutions. With continuous innovation and customer-centric manufacturing, Madhuram continues its journey toward becoming a globally recognized hardware brand.

From the
Founder’s Desk

Dinesh Dangariya

(Founder / Partner)

Since the inception of Madhuram Overseas, our vision has been simple—to create architectural hardware that represents exceptional quality, enduring craftsmanship, and uncompromising reliability. Every product we manufacture reflects our dedication to precision engineering, innovative design, and customer satisfaction.

Over the past three decades, we have transformed our passion for brass manufacturing into a globally recognized enterprise, serving customers across domestic and international markets. This journey has been built on trust, consistency, and an unwavering commitment to excellence.

At Madhuram, we continuously invest in advanced manufacturing technologies, stringent quality control, and sustainable production practices to ensure every product exceeds global expectations. Our skilled workforce, modern infrastructure, and customer-centric approach enable us to deliver hardware solutions that combine functionality with timeless aesthetics.

Infra-structure

Our state-of-the-art infrastructure is the backbone of Madhuram's commitment to precision, quality, and innovation. From a well-equipped manufacturing unit to advanced machinery and optimized production space, every facility is designed to deliver premium architectural hardware with exceptional consistency and craftsmanship.

The Unit

Madhuram's manufacturing unit is built to support efficient and streamlined production while maintaining the highest quality standards. Every section is carefully organized to ensure smooth workflow, precision manufacturing, and stringent quality inspections. This enables us to consistently deliver reliable brass hardware that meets both domestic and international expectations.

The Space

A spacious and well-planned production environment allows seamless movement of materials, efficient operations, and enhanced productivity. Our organized workspace supports every stage of manufacturing, ensuring safe working conditions, optimized processes, and uncompromised product quality from start to finish.

The Machinery

Our facility is equipped with advanced manufacturing machinery and precision-engineered equipment that enable accurate production and superior finishing. Combined with skilled craftsmanship and strict quality control, our modern technology ensures every Madhuram product delivers outstanding durability, flawless performance, and lasting elegance.

Crafted for Modern Architecture

Mission

To deliver premium architectural hardware that combines precision engineering, exceptional durability, and elegant design. We are committed to exceeding customer expectations through continuous innovation, uncompromising quality, and reliable manufacturing.

Vision

To become a globally recognized leader in architectural hardware by setting new benchmarks in quality, innovation, and customer trust while inspiring excellence in every product we create.

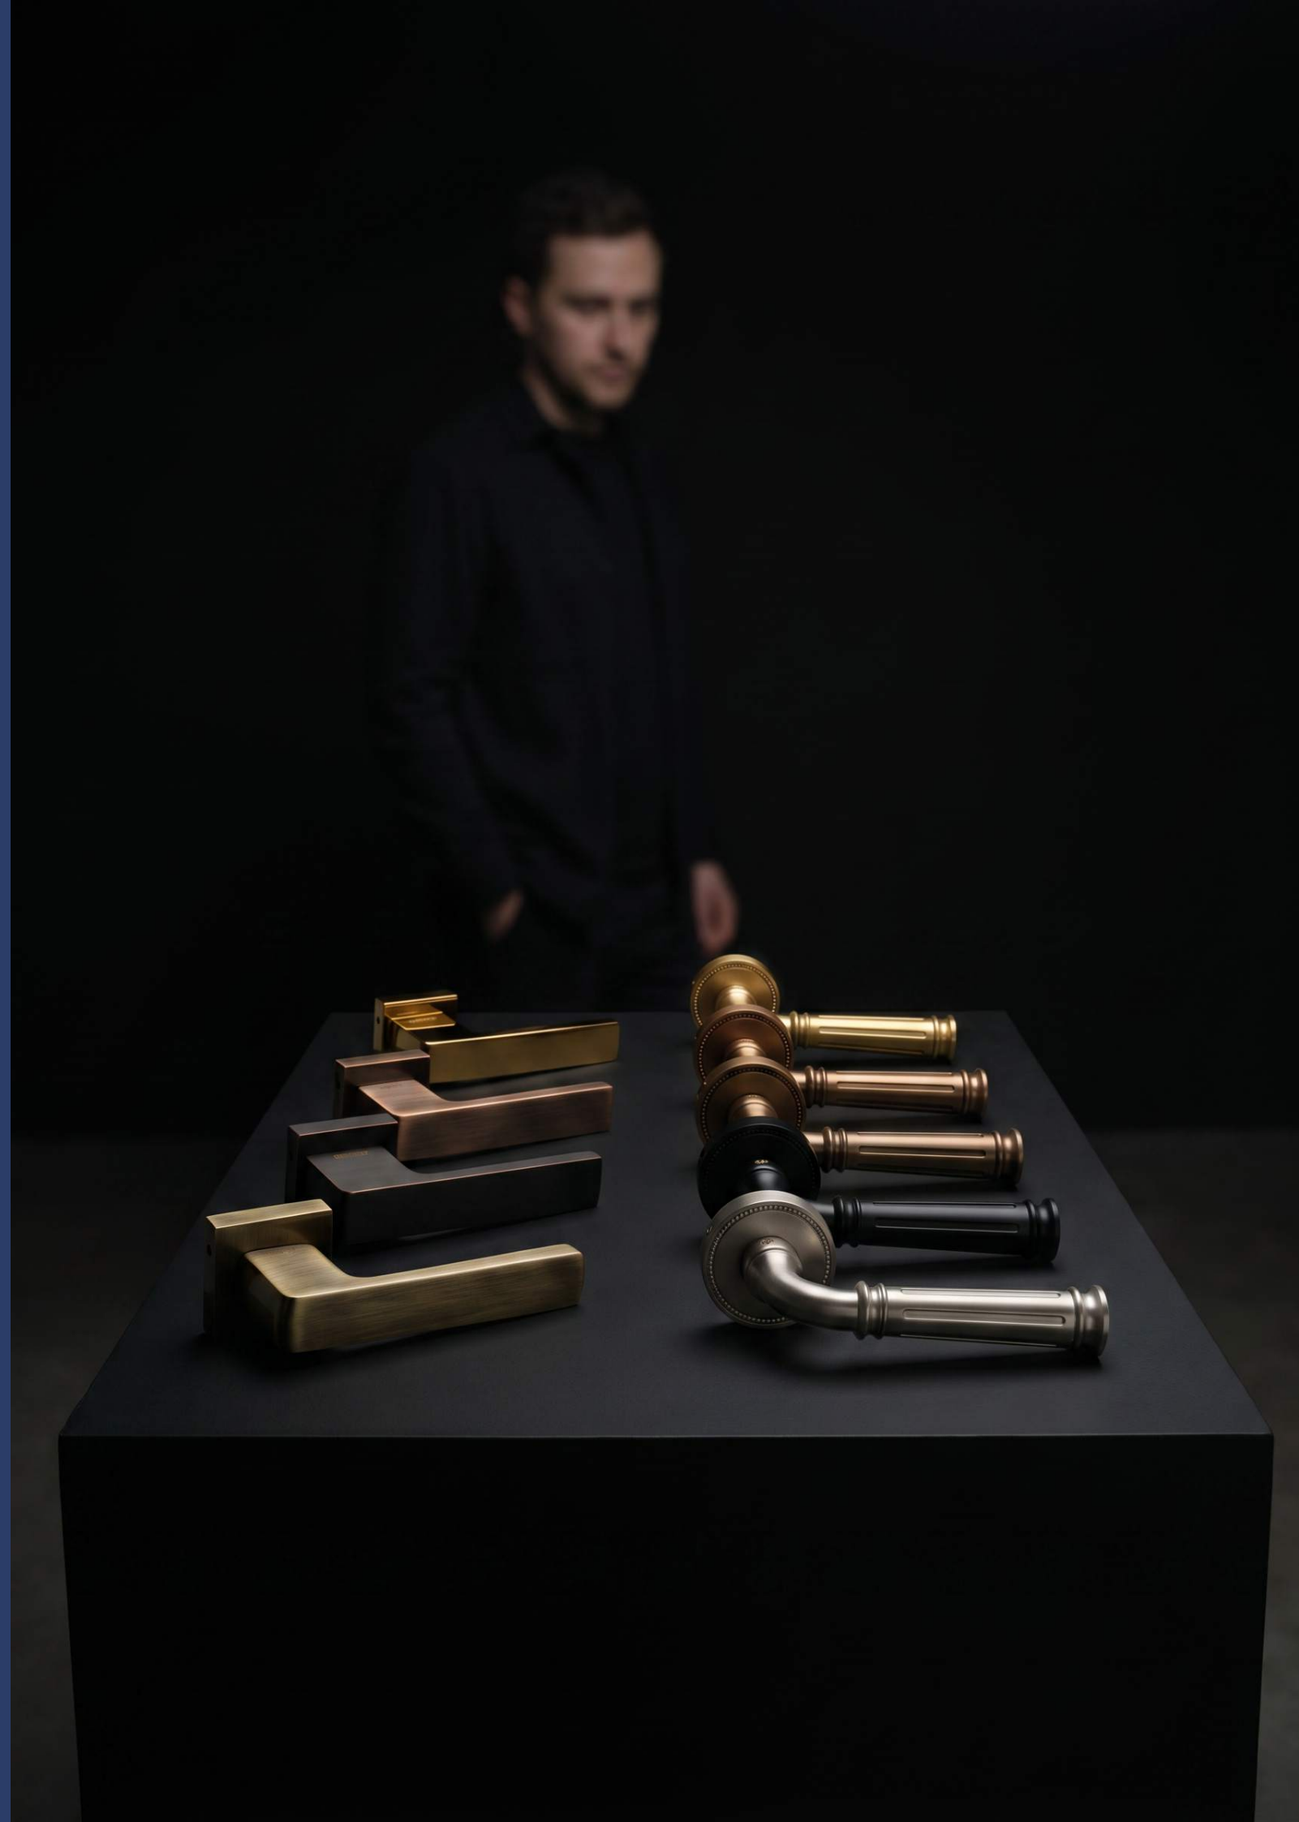

Our Values

FOR PEOPLE

People are the foundation of our success. We foster a culture of integrity, collaboration, and continuous growth while building lasting relationships with our employees, customers, partners, and communities through trust, transparency, and mutual respect.

PASSION FOR PRODUCT

Every Madhuram product reflects our dedication to craftsmanship and innovation. From material selection to precision manufacturing and flawless finishing, we pursue excellence to deliver hardware that combines lasting performance with timeless aesthetics.

Our Certifications

Certifications That Reflect Madhuram's Uncompromising Standards in Quality, Safety & Sustainability

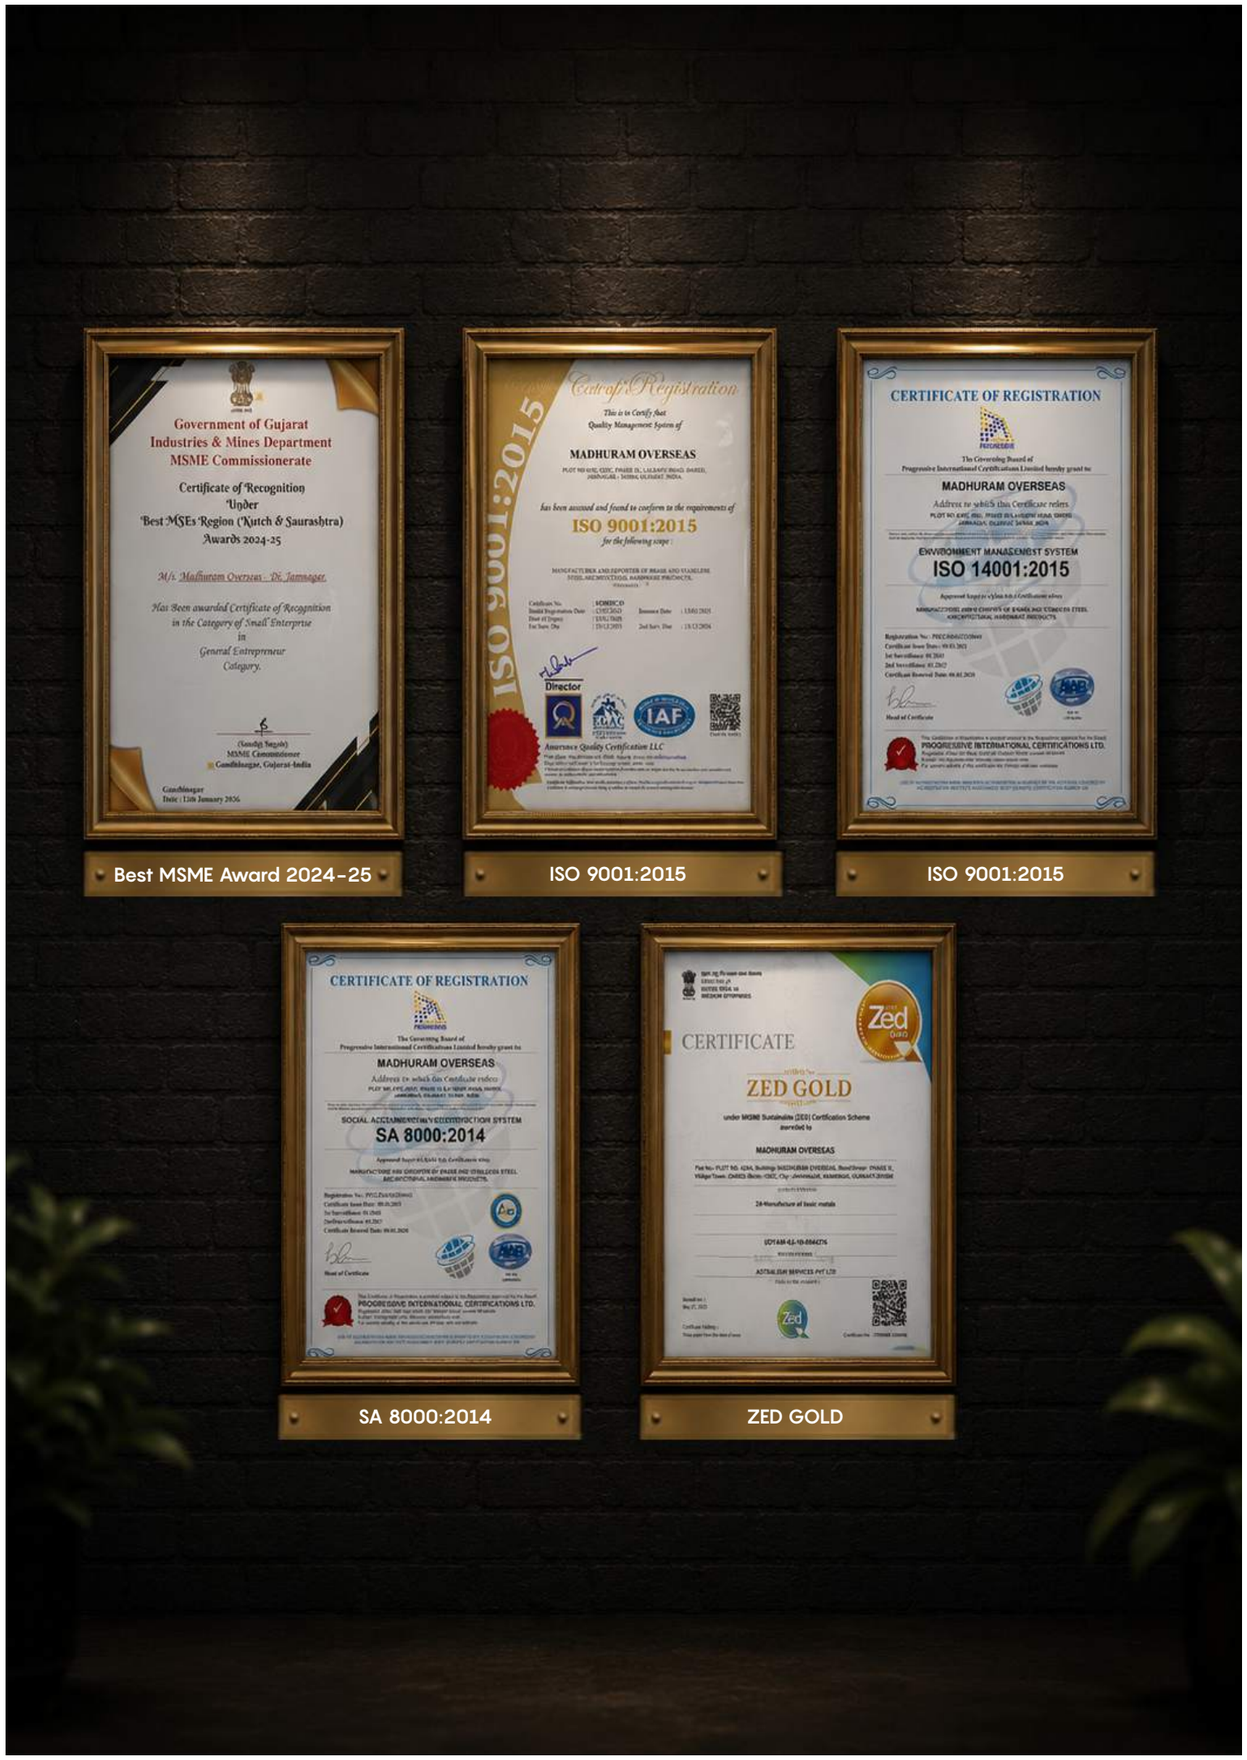

Madhuram Overseas has been honored with the Best MSME Award 2024–25 by the Government of Gujarat.

Quality & Management Systems

- ZED MSME Gold Certificate – Government of India Recognition for Quality & Excellence
- ISO 9001:2015 – Quality Management System

- Lean MSME Basic – MSME Competitive Scheme

Product-Specific Certifications (ISI Marked)

- IS 12817:2020 – For Stainless Steel Heavy Weight Butt Hinges
- IS 204: Part 2: 1992 – For Brass Tower Bolts
- IS 205:1992 – For Brass Butt Hinges
- IS 4992:2024 – For Door Handles for Mortise Locks

5 Foundations of Reliable Brass Solutions

Premium Brass Expertise

With decades of expertise in brass hardware manufacturing, we combine traditional craftsmanship with advanced engineering to deliver products that offer exceptional durability, precision, and timeless appeal.

Advanced Manufacturing

Our modern production facility is equipped with precision machinery and advanced manufacturing processes, ensuring consistent quality, superior finishes, and high production efficiency.

Global Quality Standards

Every product undergoes rigorous quality inspections and follows international manufacturing standards, ensuring reliable performance, flawless craftsmanship, and lasting customer satisfaction.

Luxury Design Development

Our in-house design team creates contemporary architectural hardware that blends elegant aesthetics with practical functionality, enhancing modern residential and commercial spaces.

Skilled Workforce

Driven by experienced professionals and skilled craftsmen, our team is dedicated to innovation, precision manufacturing, and delivering excellence in every product we produce.

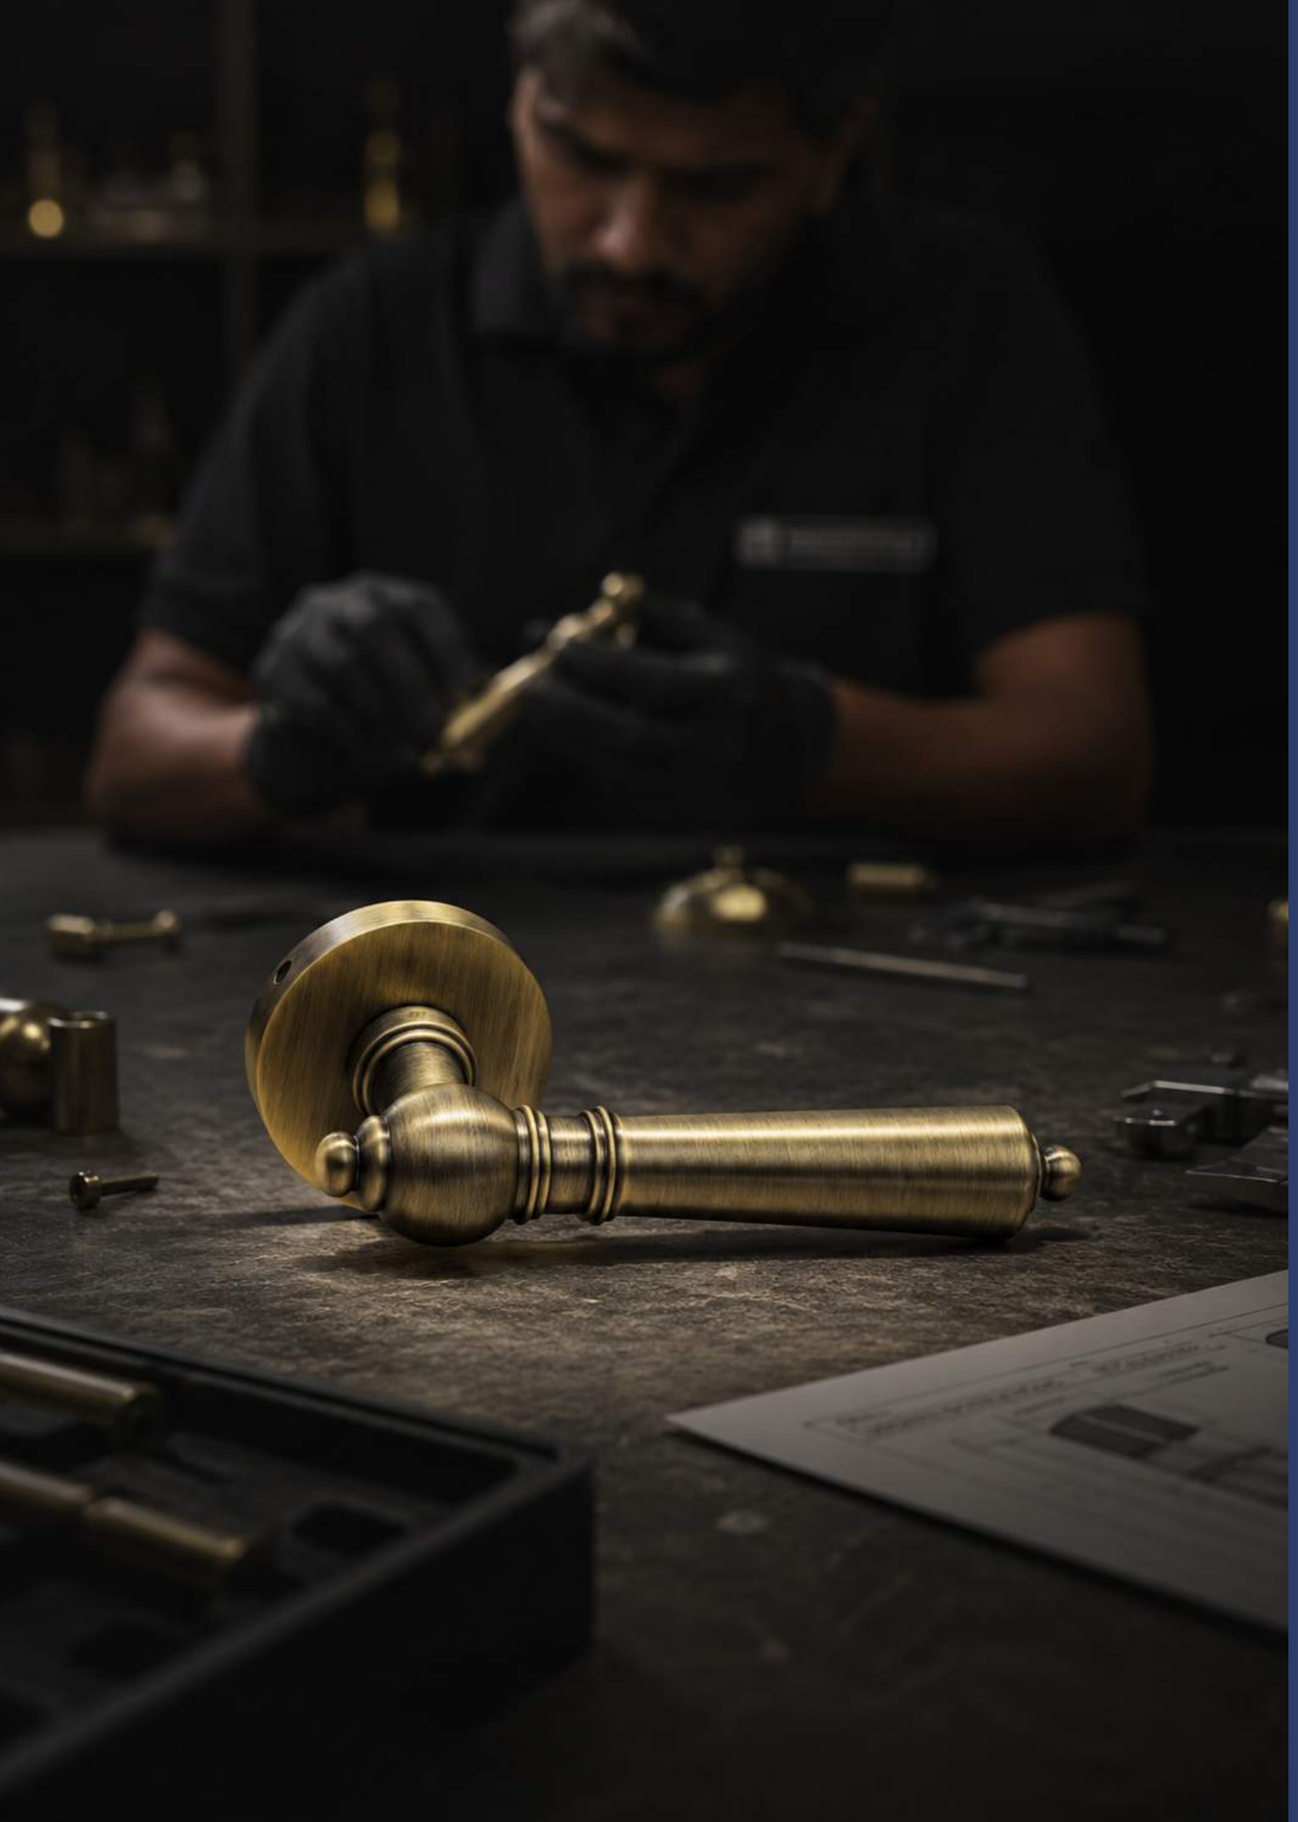

In-House Facilities

At Madhuram Overseas, our state-of-the-art manufacturing facility is designed to ensure precision, consistency, and uncompromising quality at every stage of production. Equipped with advanced machinery and managed by skilled professionals, our integrated production process enables us to manufacture premium architectural hardware that meets global quality standards. From raw material processing to final packaging, every operation is carried out under strict quality control, delivering products that combine durability, precision, and superior craftsmanship.

- EXTRUSION PLANT
- DIE-CASTING FURNACE
- MACHINING AREA (CNC, VMC, MANUAL, ETC.)
- BUFFING & POLISHING AREA
- PLATING PLANT
- ASSEMBLY AREA
- FINAL PACKING DEPARTMENT
- FORGING
- PLATING PLANT & PVD FACILITIES
- R&D TESTING LABS

Quality Testing & Assurance

- All product materials undergo third-party testing for compliance and reliability.
- Product life-cycle testing ensures long-lasting durability and performance.
- In-house coating testing includes:

- ✓ Coating Thickness Test
- ✓ Pencil Hardness Test
- ✓ Acetone Rub Test
- ✓ Salt Spray Test
- ✓ Spectrometer (MTC)
- ✓ Life-Cycle Testing Machine

We are committed to maintaining high standards through rigorous in-house and external quality assessments.

Product Collection

The highest quality at every stage of production

Discover our premium range of brass hardware fittings, crafted to deliver reliable performance, lasting durability, and an elegant finish. Each product is precision-engineered to meet the demands of modern residential and commercial spaces.
